RESEARCH AND PROPAGATION  
OF NEW FRUIT VARIETIES

## FRUIT VARIETY RESEARCH

**COT INTERNATIONAL** is a company specialized in research, creation and propagation of new stone fruit varieties : **APRICOT, CHERRY, PLUM.**

We undertook, some years ago, a breeding program, in order to improve these species. Our main selection criteria are the following :

**Ripening time** : extending our varietal schedule over several weeks / months.

**Agronomic characteristics** : self-fertility, important and regular production, good training of the trees, Fruit resistance to harvest, packing and weather problems (rains and wind) ; great potential of size and production to limit thinning and therefore production costs.

**Qualities of the fruits** : attractive aspect and colour ; good firmness for the resistance to manipulations and for the storage ability.

**Geographical adaptation and chilling hours analysis of each variety** : this study is based on our varieties behaviours in our experimental orchards in Murcia (Spain) and the data recorded by the CEBAS. The data mentioned in each descriptive sheet are in Chilling Units (Ch. Un.).

**Tolerance to diseases** : Bacteriosis, Sharka, ECA, Xanthomonas, Monilia, etc...

We are working especially on **Sharka resistance** with molecular biology laboratories ADNID (Montpellier) and CTIFL (Lanxade), searching resistance genes. This information is indicated in each descriptive sheet. 

**Organic farming** : the tested and adapted varieties are WONDER COT, TOM COT, PERLE COT, FLAVOR COT, LADY COT, DELICOT and SWIRED.

Concerning Apricot varieties, we are working on a new segmentation : BICOLOUR, RED, WHITE FLESH and FLAT apricots.

**Organisation of fruit exhibitions and tasting of our new varieties by all the chain actors: growers, technicians, nurserymen, buyers and consumers.**

**VARIETY DISTRIBUTION** : Nurseries list on request or on our website : [www.cot-international.eu](http://www.cot-international.eu)

## MAYA COT (cov)

2010-04

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : EU 54646 Registration Date : 16/03/2020.

This new apricot variety MAYACOT is very early, 10-12 days before WONDER COT (in Murcia area) and very productive. Fruit has got a very attractive colour red / orange, a high firmness and good cracking resistance.

### BLOSSOM

Season : early, 3-5 day before WONDERCOT.

Importance of blossom : important

Fertility : STERILE ; to pollinate with MAGIC COT, SUNNY COT or COLORADO.

### TREE

Growth habit : spreading habit. Very good ramification

Vigour : good

Fructification : every type of branches.

### AGRONOMIC CHARACTERS

Productivity : very good

Entrance of production : very quick, in 2<sup>nd</sup> leaf

Chilling hours : low ; 300 Ch. Un.

Sharka Resistance : NO.

### FRUIT

Season : very early ; 10 - 12 days before WONDER COT in Murcia (Spain) ; 3-5 days (Nîmes - France)

Harvest stage : colour code CTIFL : 6-7

Size : 2A - 3A. It needs an early and good thinning to increase the size

Shape : oval

Ground colour : dark orange

Over colour : 40%, bright red

Firmness : very good ; 72 Durofel

Eating quality : good for the season ; (12° Brix) ; melting and juicy

Cracking tolerance : very important ; the skin is very rustic and has good resistance to rains and wind

Storage ability : very good storage ; 1 month.

## SMART COT (cov)

2013-15

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : Active application 2020/2650. Registration Date : 27/10/2020.

Early variety (WONDER COT +3 days), SELF-FERTILE. The fruit is very attractive, firm and rustic. Its sweet and juicy taste is an excellent asset in this maturity ripeness.

### BLOSSOM

Season : semi-early ; 19th of February 2021 (early season)

Importance of blossom : important

Fertility : SELF-FERTILE.

### TREE

Growth habit : semi-upright, good ramification

Vigor : very good

Fructification : each type of branches.

### AGRONOMIC CHARACTERS

Productivity : very good

Entrance of production : very quick, in 2<sup>nd</sup> leaf

Chilling requirement : low to medium chilling

PPV resistance : genetic markers for resistance.

### FRUIT

Season : early, WONDER COT + 3 days

Size : 3A-2A

Shape : round

Ground Colour : bright orange

Over Colour : 20% bright red blush

Firmness : very good (Durofel 75)

Eating quality : excellent ; sweet (15° Brix) and very juicy fruit, low acidity with aroma

Cracking tolerance : very good, rustic epidermis

Storage ability : very good. 4 weeks.

Patented variety. Propagation and distribution forbidden without Cot International permission.

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

## FIESTA COT (cov)

2011-16

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : Active application N°2018/1853.

Registration Date : 06/19/2018.

This variety arrives during **MAGIC COT** season with better agronomic characters. **SELF FERTILE**, the production is more regular with a nice fruit quality and good taste.

### BLOSSOM

Season : medium

Importance of blossom : important

Fertility : SELF FERTILE.

### TREE

Growth habit : spreading habit, good ramification

Vigour : good to very good

Fructification : each type of branches.

### AGRONOMIC CHARACTERS

Productivity : high

Entrance of production : very quick, in 2<sup>nd</sup> leaf

Chilling hours : medium ; 500 - 600 Ch.Un.

Sharka Resistance : NO.

### FRUIT

**Season : Semi early. 10 days after WONDER COT**

Harvest stage : colour code CTIFL : 7 - 8

Size : 2A

Shape : round to slightly oval

Ground colour : bright orange

Over colour : 20-50% of bright red

Firmness : very good (Durofel 74)

Eating quality : very good flavour. Sweet and very juicy fruit (13° Brix).

With aroma

Cracking tolerance : good and good resistance to rain.

Storage ability : very good storage ; 1 month.

## MISTER COT (cov)

2015-142 (cov)

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : Active application N° 2020/2646.

Registration Date : 27/10/2020

**Semi-early variety (FIESTA COT +5 days), SELF-FERTILE. It's an attractive and rustic fruit. It's taste quality is excellent, sweet, juicy and very aromatic.**

### BLOSSOM

Blossom Season : semi-early ; 18th of February 2021 (early season)

Importance of blossom: important

Fertility : SELFERTILE.

### TREE

Growth habit : semi-upright, good ramification

Vigor : very good

Fructification : each type of branches.

### AGRONOMIC CHARACTERS

Productivity : very good

Entrance of production : very quick, in 2<sup>nd</sup> leaf

Chilling requirement : still in evaluation

PPV (SHARKA) resistance : NO.

### FRUTO

**Season : semi-early. FIESTA COT + 5days**

Size : 3A-2A

Shape : round

Ground Colour : bright orange

Over Colour : 20% bright red blush

Firmness : very good (Durofel 75)

Eating quality : excellent; sweet (15° Brix) and very juicy fruit, low acidity with aroma

Cracking tolerance : very good, rustic epidermis

Storage ability : very good. 4 weeks.

## COCOT (cov)

2012-44

**OBTECTOR:** COT INTERNATIONAL - FRANCE

**EDITOR:** COT INTERNATIONAL

**VARIETY PROTECTION :** Active application N° 2016/3207  
Registration Date : 12/16/2016.

This variety arrives during **GOLDRICH** season. **COCOT** is very attractive, it looks like a little coloured peach. This **SELF FERTILE** variety has a real agronomic potential (good tonnage and fruit size), good fruit qualities and good resistance to rain.

### BLOSSOM

Season : 3-5 days before DELICOT  
Importance of blossom : important  
Fertility : SELF FERTILE.

### TREE

Growth habit : spreading habit, good ramification  
Vigour : good  
Fructification : each type of branches, mostly on short shoots.

### AGRONOMIC CHARACTERS

Productivity : very high  
Entrance of production : very quick, in 2<sup>nd</sup> leaf  
Chilling hours : medium ; 500 - 600 Ch.Un.  
Sharka Resistance : RESISTANT.

### FRUIT

Season : Semi early. **GOLDRICH** season.  
Harvest stage : colour code CTIFL : 7  
Size : 3A - 2A  
Shape : round  
Ground colour : dark orange  
Over colour : garnet red (30/50%)  
Firmness : very good (Durofel 75)  
Eating quality : very good flavour. Sweet fruit (14° Brix)  
Cracking tolerance : Good and good resistance to rain.  
Storage ability : good storage ; 3 weeks to 1 month.

## DELICOT (cov)

HYB 3 - 5 / DELICOT

**OBTECTOR :** Marie-Laure ETEVE - FRANCE

**EDITOR :** COT INTERNATIONAL

**VARIETY PROTECTION :** EU 48932. Registration date :  
04/23/2018.

**DELICOT (cov)** is a **SELF FERTILE** variety, ripening at the same time as **FLAVOR COT®**, with an exceptional red garnet colour on about 50 % of the fruits surface. The eating quality is very sweet and juicy with 16° Brix.

### BLOSSOM

Season : medium ; same time as FLAVOR COT  
Importance of blossom : medium to normal  
Fertility : SELF FERTILE.

### TREE

Growth habit : spreading habit  
Vigour : medium - good  
Fructification : on all kind of wood - regular every year.

### AGRONOMIC CHARACTERS

Productivity : good and regular  
Entrance of production : very quick in second leaf  
Chilling hours : medium to High ; 700 - 1000 Ch.Un.  
Sharka Resistance : it has got the genetic markers for RESISTANCE.

### FRUIT

Season : 25<sup>th</sup> of June (Nîmes - France)  
Harvest stage : colour code CTIFL : 6-7  
Size : 3A - 4A.  
Shape : oval - round  
Ground colour : orange  
Over colour : 60% dark, bright red  
Firmness : good ; 70 Durofel  
Eating quality : excellent , sweet and good flavour (16°Brix) with fine and juicy texture  
Cracking tolerance : good  
Storage ability : good storage ; 3 weeks to 1 month.

Patented variety. Propagation and distribution forbidden without Cot International permission.

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

## LADY COT cov

HYB 3-3

**OBTENTOR** : Marie-Laure ETEVE - FRANCE  
**EDITOR** : COT INTERNATIONAL  
**VARIETY PROTECTION** : EU 29635. Registration date : 04/18/2011.

This **SELF FERTILE** variety ripens at a very interesting moment : semi late. Its agronomic potential and its fruit quality especially colour, firmness and eating quality are outstanding.

### BLOSSOM

Season : semi late  
 Importance of blossom : important  
 Fertility : SELF FERTILE.

### TREE

Growth habit : semi upright. Good ramification.  
 Vigour : good  
 Fructification : on each type of branches and mostly on short shoots.

### AGRONOMIC CHARACTERS

Productivity : very good  
 Entrance of production : quick  
 Chilling hours : medium ; 500 - 600 Ch.Un.  
 Sharka Resistance : RESISTANT.

### FRUIT

**Season : semi late ; end of June - beginning of July (Nîmes - France)**  
 Harvest stage : colour code CTIFL : 6  
 Size : 3A - Big  
 Shape : oval - round  
 Ground colour : bright orange  
 Over colour : nice red blush on 30 to 50% of fruit area  
 Firmness : very good ; 75 Durofel  
 Eating quality : very sweet and juicy (15° Brix)  
 Cracking tolerance : good, better when the tree is older and the production higher  
 Storage ability : excellent storage ; more than 1 month.

## SWIRED (cov)

REG 3220

**OBTENTOR** : Christian de Régibus - SUISSE  
**EDITOR** : COT INTERNATIONAL et STAR FRUITS  
**VARIETY PROTECTION** : EU 45232. Registration date : 01/23/2017.

**SWIRED (cov)** is a semi late variety following the **LADY COT. SELF FERTILE**, it is very productive. The fruit, with a nice colour, has an excellent eating quality.

### BLOSSOM

Season : semi early  
 Importance of blossom : important  
 Fertility : SELF FERTILE.

### TREE

Growth habit : Upright. Good ramification  
 Vigour : very good  
 Fructification : all kind of wood, mostly on short shoots.

### AGRONOMIC CHARACTERS

Productivity : good and regular every year  
 Entrance of production : very quick ; on 2<sup>nd</sup> leaf  
 Chilling hours : medium to High ; 700 - 1000 Ch.Un.  
 Sharka Resistance : RESISTANT.

### FRUIT

**Season : semi late ; 5 - 10 of July ; after LADY COT (Nîmes - France)**  
 Harvest stage : colour code CTIFL : 7 - 8  
 Size : 3A - 2A  
 Shape : oval - round  
 Ground colour : dark orange  
 Over colour : 40% of dark red, shiny ; smoothy surface  
 Firmness : good . 70 Durofel  
 Eating quality : very good ; very sweet fruit (18° Brix), with plenty of flavour and juicy  
 Cracking tolerance : good  
 Storage ability : good storage ; 3 weeks to 1 month.

Patented variety. Propagation and distribution forbidden without Cot International permission.

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

## PLAYA COT (cov)

2010-78

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : EU 54648 Registration Date : 16/03/2020.

This new Apricot variety is late, after LADY COT and SWIRED (cov) and SELF FERTILE. Its self-fertility, its eating quality and colour of fruit are exceptional.

### BLOSSOM

Season : late  
Importance of blossom : important  
Fertility : SELF FERTILE.

### TREE

Growth habit : semi upright. Good ramification  
Vigour : good  
Fructification : on each type of branches.

### AGRONOMIC CHARACTERS

Productivity : very good  
Entrance of production : quick, in 2<sup>nd</sup> leaf  
Chilling hours : medium ; 500 - 600 Ch.Un.  
Sharka Resistance : NO.

### FRUIT

**Season : semi late**  
Harvest stage : colour code CTIFL : 7 - 8  
Size : 2A - 3A  
Shape : oval - round  
Ground colour : dark orange  
Over colour : 30 - 50 % of bright red  
Firmness : very good ; 72 Durofel  
Eating quality : excellent and sweet (18° Brix) ; melting and juicy texture. Slightly acidulous  
Cracking tolerance : important  
Storage ability : very good storage ; 1 month.

## JUSTO COT (cov)

2011-94

**OBTECTOR** : COT INTERNATIONAL - FRANCE

**EDITOR** : COT INTERNATIONAL

**VARIETY PROTECTION** : Active application n° 2017/2469.  
Registration Date : 03/10/2017.

This late variety arrives during FARELY season and after SWIRED and PLAYA COT. Its agronomic potential is very interesting (tonnage and fruit size) and the fruit have good coloration and good eating qualities.

### BLOSSOM

Season : late, BERGERON season  
Importance of blossom : important  
Fertility : SELF FERTILE.

### TREE

Growth habit : semi upright, good ramification  
Vigor : very good  
Fructification : each type of branches, mostly on short shoots.

### AGRONOMIC CHARACTERS

Productivity : very good ; very good blossom and production in 2016 (Nîmes)  
Entrance of production : very quick, in 2<sup>nd</sup> leaf  
Chilling hours : medium to High ; 700 - 1000 Ch.Un.  
Sharka Resistance : RESISTANT.

### FRUIT

**Season : late, FARELY season**  
Harvest stage : colour code CTIFL : 7  
Size : 3A (uniformity in size)  
Shape : oval - round  
Ground colour : bright orange  
Over colour : 30% of light red blush  
Firmness : very good (Durofel 78)  
Eating quality : aromatic fruit and good flavours (15° brix)  
Cracking tolerance : Good and good resistance to rain.  
Storage ability : good storage ; 3 weeks to 1 month.

Patented variety. Propagation and distribution forbidden without Cot International permission.

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

# WINNIE COT (cov)

2013-112 (cov)

**OBTECTOR :** COT INTERNATIONAL - FRANCE

**EDITOR :** COT INTERNATIONAL

**VARIETY PROTECTION :** Active application N° 2020/2649 Registration Date : 27/10/2020.

**This late variety arrives at the end of July. SELFERTILE, the production is very regular with a nice fruit quality, very good taste and a lot of sugar.**

## BLOSSOM

Season : late

Importance of blossom : important

Fertility : SELFERTILE.

## TREE

Growth habit: semi-upright, good ramification

Vigor : medium

Fructification : each type of branches.

## AGRONOMIC CHARACTERS

Productivity : good

Entrance of production : very quick, in 2<sup>nd</sup> leaf

Chilling requirement : medium (still in evaluation)

PPV resistance : NO.

## FRUIT

Season : late +7 days JUSTO COT

Size : 2A-3A

Shape : round to slightly oval

Ground Colour : bright orange

Over Colour : 30% bright red blush

Firmness : very good (Durofel 72)

Eating quality : very good; sweet (14° Brix) and very juicy fruit, low acidity with aroma

Cracking tolerance : very good, rustic epidermis

Storage ability : very good. 4 weeks.

**Patented variety. Propagation and distribution forbidden without Cot International permission.**

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

# Red Apricot

## ROUGE COT® N° 2011-72 (cov)

**OBTECTOR :** COT INTERNATIONAL - FRANCE  
**EDITOR :** COT INTERNATIONAL  
**VARIETY PROTECTION :** EU 54654 Registration Date : 16/03/2020.

This new RED Apricot has promising qualities. SELF FERTILE, this variety is very productive with an easy tree management. Moreover, its eating quality and colour of fruit are exceptional.

### BLOSSOM

Season : very late  
Importance of blossom : important  
Fertility : SELF FERTILE.

### TREE

Growth habit : semi upright. Good ramification  
Vigour : medium to good  
Fructification : on short buds.

### AGRONOMIC CHARACTERS

Productivity : very good  
Entrance of production : quick, in 2<sup>nd</sup> leaf  
Chilling hours : medium ; 500 - 600 Ch.Un.  
Sharka Resistance : RESISTANT.

### FRUIT

**Season : medium**  
Harvest stage : when the fruit is completely luminous red ; we begin from the top of the tree to the centre of the tree.  
Size : 2A - 3A  
Shape : oval - round  
Ground colour : 100% red - granate  
Over colour : light orange  
Firmness : very good ; 78  
Eating quality : excellent and sweet (15° Brix) ; very aromatic (cherry aroma)  
Cracking tolerance : important ; the skin is very rustic and has good resistance to rains and wind  
Storage ability : very good storage ; 1 month.

Patented variety. Propagation and distribution forbidden without Cot International permission.

Reminder : the numbers (firmness, sugar, size, date, etc..) are indicative ; they strongly depend on the harvest date, the yield and the climatic conditions of the year..

## VANILLA COT®

SELECT 98 cov

**OBTECTOR :** SDR FRUIT LLC - USA

**EDITOR :** COT INTERNATIONAL

**VARIETY PROTECTION :** EU 29634. Registration date : 04/18/2011.

**This apricot is very original. Bicolour with a red-pink blush on a cream ground colour. Its quality is excellent and very appreciated by the Tasting Club organized by Cot International.**

### BLOSSOM

Season : semi late

Importance of blossom : very important

Fertility : SELF STERILE. To pollinate with FLAVOR COT®, PERLE COT cov or LADY COT cov.

### TREE

Growth habit : spreading habit. Good ramification

Vigour : good

Fructification : on each type of branches.

### AGRONOMIC CHARACTERS

Productivity : very good if well pollinated

Entrance of production : medium to quick (3<sup>rd</sup> leaf)

Chilling hours : high ; more than 1000 Ch. Un.

Sharka Resistance : it has got the genetic markers for RESISTANCE.

### FRUIT

**Season : mid-season ; same as DELICOT**

Harvest stage : colour code CTIFL : 4-5

Size : 2A - 3A - A

Shape : oval - round

Ground colour : cream ; white flesh

Over colour : red - pink blush on 20 to 50% of the fruit

Firmness : good for this type of apricot ; 68 Durofel

Eating quality : excellent and well balanced. The flesh is juicy and very sweet (16-18° Brix) with a skin slightly acidulous.

Cracking tolerance : seems good

Storage ability : good storage ; 3 weeks.

## PIANO COT (cov)

Piano 30 / 2012-30 (cov)

**OBTECTOR :** COT INTERNATIONAL - FRANCE

**EDITOR :** COT INTERNATIONAL

**VARIETY PROTECTION :** Active application n°2017/2723. Registration Date : 10/26/2017.

**This apricot is very surprising for its flat shape and its curious color : red-pink on cream ground color. The Tasting Club has appreciated at the unanimity this apricot.**

### BLOSSOM

Season : early ; TOM COT® season

Importance of blossom : important

Fertility : SELF FERTILE.

### TREE

Growth habit : spreading habit

Vigour : good

Fructification : good ramification and fructification.

### AGRONOMIC CHARACTERS

Productivity : good

Entrance of production : very quick ; 2<sup>nd</sup> leaf

Chilling hours : medium ; 500 - 600 Ch.Un.

Sharka Resistance : NO.

### FRUIT

**Season : semi early ; with PERLE COT.**

Harvest stage : colour code CTIFL : 5

Size : 2A - 3A

Shape : round and flat fruit

Ground colour : light orange

Over colour : brilliant red blush on 40% of the superficies

Firmness : good, 70 Durofel

Eating quality : very aromatic ; exotic fruits aromas, sweet (18°brix) and juicy

Cracking tolerance : good enough

Storage ability : good storage ; 3 weeks to 1 month.

Research and propagation  
of new fruit varieties
